# HM0405608S

Cylindrical shape rotary burr, sharpened end

## Details

|                           |       |
|---------------------------|-------|
| Cut                       | S     |
| Diameter of cutting edge  |       |
| D +/-0,1                  | 8,00  |
| Shank Diameter            |       |
| d h7                      | 6,00  |
| Overall Length            |       |
| L                         | 65    |
| Cutting length            |       |
| l                         | 18,00 |
| Shank references standard |       |
| Shank ref.                | HA    |

## Materials

|                                       |             |
|---------------------------------------|-------------|
| Steel < 800 n/mm <sup>2</sup>         | <div></div> |
| Steel < 1000 n/mm <sup>2</sup>        | <div></div> |
| Steel < 1300 n/mm <sup>2</sup>        | <div></div> |
| Ferritic/Martensitic steel            | <div></div> |
| Austenitic steel                      | <div></div> |
| PH Duplex                             | <div></div> |
| Grey cast iron                        | <div></div> |
| Aluminium                             | <div></div> |
| Copper                                | <div></div> |
| Thermoplastic resin                   | <div></div> |
| Difficult-to-machine Superalloys      | <div></div> |
| Very difficult-to-machine Superalloys | <div></div> |
| Titanium                              | <div></div> |

## Coatings

Uncoated (HM0)

## Alternative Coatings

Balinit® Alcrona (HMG)

This tool is available in 5 diameters and 2 coatings.
