# HMG490608A

Inverted cone shape rotary burr

WKN

DIN  
8033

## Details

|                           |      |
|---------------------------|------|
| Cut                       | A    |
| C                         |      |
| Diameter of cutting edge  |      |
| D +/-0,1                  | 8,00 |
| Shank Diameter            |      |
| d h7                      | 6,00 |
| Overall Length            |      |
| L                         | 53   |
| Cutting length            |      |
| l                         | 8,00 |
| Flute Inclination         |      |
| α2                        | -5,0 |
| Shank references standard |      |
| Shank ref.                | HA   |

## Materials

|                                       |                        |
|---------------------------------------|------------------------|
| Steel < 800 n/mm²                     | <div><div></div></div> |
| Steel < 1000 n/mm²                    | <div><div></div></div> |
| Steel < 1300 n/mm²                    | <div><div></div></div> |
| Ferritic/Martensitic steel            | <div><div></div></div> |
| Austenitic steel                      | <div><div></div></div> |
| PH Duplex                             | <div><div></div></div> |
| Grey cast iron                        | <div><div></div></div> |
| Aluminium                             | <div><div></div></div> |
| Copper                                | <div><div></div></div> |
| Thermoplastic resin                   | <div><div></div></div> |
| Difficult-to-machine Superalloys      | <div><div></div></div> |
| Very difficult-to-machine Superalloys | <div><div></div></div> |
| Titanium                              | <div><div></div></div> |

## Coatings

Balinit® Alcrona (HMG)

## Alternative Coatings

Uncoated (HM0)

This tool is available in 4 diameters and 2 coatings.
